2. ASSESSMENT OF THE PROJECT

100 words maximum per bullet point

- What is your assessment of the results of the project? Include observations on the achievement of the objectives, the performance of financial monitoring mechanisms, governance, and project management. Were there any unforeseen positive or negative results?

(1) EU FORUM AT NDHU

People in Eastern Taiwan obtained a comprehensive understanding of European Union Social Policy through the lectures of Prof. Mei-ying Chao and Prof. Ting-yio Huang.

¹ This plan will cover the financial period between the interim report and the next report.

(2) EU GRANT WORKSHOP

- a. Training workshops, curriculum development exercises, and information materials organized for college staffs and students.
- b. Developing EU related outreach activities aimed at the broad public in Taiwan in order to enhance the visibility of the EU, its policies and institutions.
- c. Contributing to the expansion and strengthening of people-to-people and academic links and exchanges between the European Union and Taiwan, including the promotion of studies in the European Union in all academic fields in Taiwan.

Increasing the interaction and cooperation among Taiwanese scholars and students whose research fields are related to EU and enhancing EU research in Taiwan.

(3) EU CLUB

Through the movies of the European Film Festival and the lectures of Dr. Hui-Ling Huang, the students in National Dong Hwa University and the people in Eastern Taiwan obtained a comprehensive understanding of the lives and cultures in the different states of the European Union. Through the lecture of Prof. Dr. Drechsler, the students and the people increased their knowledge of the EU by the comparison of the Western and Eastern administration systems. The content of the speech evoked also intense discussions between Prof. Dr. Drechsler and the other scholars among the audience and the students in Dong Hwa University in the Q&A time. This stimulated the research interests in the study field related to the EU.

- What are the major successes achieved and the difficulties experienced during the interim report period? How can the successes be repeated and the difficulties lessened or avoided in future?

For all the three projects, we found the major successes achieved were the dissemination of the knowledge of the cultures and politics of the EU, and also the European Union Research Center of National Dong Hwa University in Taiwan. The problem for the projects is the shortage of the personnel budget, so no fixed staff could be hired to work for the European Union Research Center of National Dong Hwa University for a long term, so that there were always the gaps to transfer the experiences to organize the activities of the EU Club annually and the work could not be improved or extended by the basis and the experiences of the former because of the constant change of personnel.

For the project of EU Grant Workshop we thought it would be better that some students from EU countries could also apply for the scholarship. We would suggest strengthening the cooperation with the Office of International Affairs of NDHU, so

that we can connect the students from EU countries, and invited them to join the Workshop.

- Please assess the impact of the project (relevance of the design chosen, planned objectives reached, targeted population addressed, visibility of the project ensured etc).

The planned objectives for all three projects were reached. The targeted population was students, scholars and also general public. The three groups of the population were reached regarding kinds, but it should reach more regarding the quantity of the participation, so that the project could be more highly visible.

- Please list potential risks that may have jeopardized the realisation of some activities and explain how they have been tackled. Refer to log frame indicators. If relevant, submit a revised log frame, highlighting the changes.

None.

- Please list all contracts (works, supplies, services) above 10.000€ awarded for the implementation of the action during the reporting period, giving for each contract the amount, the award procedure followed and the name of the contractor.

None.

- What other linked aspects could be studied in the future? How could the topic be extended or developed further?

It might be better to cooperate with the Office of International Affairs of NDHU, thus the EURC can contact with students from EU countries, and invited them to join the Workshop. Through the interactions between Taiwanese and EU countries students, the participants could deepen the knowledge of EU countries and culture.

The European Film Festival of the EU Club could be extended to also introduce other kinds of arts such as music.

- Attach any self-evaluations, visitor and/or participant comments, feedback received and other documents that may be useful in assessing your programmes.
